ABIAL sound bites

Automation
10 June 2021
12:30 - 13:30

“

There is always a high demand for human intelligence to innovate & create a better Strategy in every industry. To full fill the demand, robots have to be separated from the mind and in daily activities to be a smart worker instead of a hard worker.

Ajay is a Associate Partner within EY Luxembourg, Advisory practice and leading the Enterprise Intelligence and Analytics solution. He has over 17 years of experience in on all phases of Digitalization covering Robotics, Data Analytics, and AI.

Ajay has worked with major companies in Digital Transformation and Process Automation solutions as well as Data Analytics, Revenue Assurance, Business process Re-Engineering, Process Modelling, Business Process Risk Consulting, Sarbanes Oxley, TAX compliance and Fraud investigations.
